

Reminder - Medicare Claims Pricer for Ambulatory Surgery Center Claims

HAP has a Medicare claims pricer for free standing ambulatory surgery center (ASC) claims for HAP Medicare plans to ensure:

- Standardized Medicare pricing and methodologies
- More accurate pricing (i.e. wage adjustments, discounting, bundling, etc.)
- More timely updates when Medicare rates change

This pricer impacts ASC claims from contracted and non-contracted providers.

Important! To ensure accurate and timely claims processing, please be sure to submit services on an institutional claim format (CMS-1450) with appropriate ASC type of bill codes, 083X.
